

# 36 Lecture - MGT211

## Important Mcqs

1. Which of the following is a tool for production planning?

- A) Microsoft Excel
- B) Adobe Photoshop
- C) Autodesk AutoCAD
- D) Google Drive

Answer: C) Autodesk AutoCAD

2. What does MRP stand for in production planning?

- A) Manufacturing Resource Planning
- B) Material Resource Planning
- C) Marketing Resource Planning
- D) Management Resource Planning

Answer: B) Material Resource Planning

3. Which of the following is not a production planning tool?

- A) Statistical process control (SPC)
- B) Computer-aided design (CAD) software
- C) Enterprise resource planning (ERP) software
- D) Adobe Illustrator

Answer: D) Adobe Illustrator

4. What is the primary benefit of using production planning tools?

- A) To increase costs
- B) To improve efficiency
- C) To reduce output
- D) To decrease profits

Answer: B) To improve efficiency

5. Which tool is used for scheduling production tasks and tracking inventory levels?

- A) MRP
- B) ERP
- C) SPC
- D) CAD

Answer: A) MRP

6. Which of the following is a CAD software commonly used in production planning?

- A) Microsoft Word
- B) Adobe Acrobat
- C) Autodesk Inventor
- D) Google Sheets

Answer: C) Autodesk Inventor

7. What does ERP stand for in production planning?

- A) Enterprise Resource Planning

- B) Energy Resource Planning
- C) Environmental Resource Planning
- D) Economic Resource Planning

**Answer: A) Enterprise Resource Planning**

8. **Which tool is used to monitor and control production processes?**

- A) SPC
- B) CAD
- C) MRP
- D) ERP

**Answer: A) SPC**

9. **Which of the following is not a function of production planning tools?**

- A) Inventory management
- B) Resource allocation
- C) Cost reduction
- D) Customer service

**Answer: D) Customer service**

10. **What is the primary objective of using production planning tools?**

- A) To increase costs
- B) To reduce efficiency
- C) To decrease profits
- D) To optimize production processes

**Answer: D) To optimize production processes**
