- a. Human Resource Management System (HRMS)
- b. Knowledge Management System (KMS)
- c. Material Requirement Planning (MRP)
- d. Sales Force Automation (SFA)

Answer: c. Material Requirement Planning (MRP)

3. **Which of the following is an example of an information system used for customer relationship management in organizations?**

- a. Enterprise Resource Planning (ERP)
- b. Sales Force Automation (SFA)
- c. Business Intelligence (BI)
- d. Supply Chain Management (SCM)

Answer: b. Sales Force Automation (SFA)

4. **Which of the following is an example of an information system used for human resource management in organizations?**

- a. Enterprise Resource Planning (ERP)
- b. Decision Support System (DSS)
- c. Customer Relationship Management (CRM)
- d. Human Resource Management System (HRMS)

Answer: d. Human Resource Management System (HRMS)

5. **Which of the following is an example of an information system used for business intelligence in organizations?**

- a. Decision Support System (DSS)
- b. Sales Force Automation (SFA)
- c. Knowledge Management System (KMS)
- d. Customer Relationship Management (CRM)

Answer: a. Decision Support System (DSS)

6. **Which of the following is an example of an information system used for project management in organizations?**

- a. Supply Chain Management (SCM)
- b. Business Process Management (BPM)

- c. Project Management Information System (PMIS)
- d. Enterprise Content Management (ECM)

Answer: c. Project Management Information System (PMIS)

7. Which of the following is an example of an information system used for marketing in organizations?

- a. Supply Chain Management (SCM)
- b. Customer Relationship Management (CRM)
- c. Business Intelligence (BI)
- d. Enterprise Resource Planning (ERP)

Answer: b. Customer Relationship Management (CRM)

8. Which of the following is an example of an information system used for e-commerce in organizations?

- a. Online Transaction Processing (OLTP)
- b. Material Requirement Planning (MRP)
- c. Sales Force Automation (SFA)
- d. Enterprise Content Management (ECM)

Answer: a. Online Transaction Processing (OLTP)

9. Which of the following is an example of an information system used for knowledge management in organizations?

- a. Business Process Management (BPM)
- b. Human Resource Management System (HRMS)
- c. Enterprise Content Management (ECM)
- d. Knowledge Management System (KMS)

Answer: d. Knowledge Management System (KMS)

10. Which of the following is an example of an information system used for logistics management in organizations?

- a. Supply Chain Management (SCM)
- b. Enterprise Resource Planning (ERP)
- c. Business Intelligence (BI)
- d. Decision Support System (DSS)

Answer: a. Supply Chain Management (SCM)
