 - a. Human Resource Management System (HRMS)
 - b. Knowledge Management System (KMS)
 - c. Material Requirement Planning (MRP)
 - d. Sales Force Automation (SFA)

Answer: c. Material Requirement Planning (MRP)

- 3. Which of the following is an example of an information system used for customer relationship management in organizations?
 - a. Enterprise Resource Planning (ERP)
 - b. Sales Force Automation (SFA)
 - c. Business Intelligence (BI)
 - d. Supply Chain Management (SCM)

Answer: b. Sales Force Automation (SFA)

- 4. Which of the following is an example of an information system used for human resource management in organizations?
 - a. Enterprise Resource Planning (ERP)
 - b. Decision Support System (DSS)
 - c. Customer Relationship Management (CRM)
 - d. Human Resource Management System (HRMS)

Answer: d. Human Resource Management System (HRMS)

- 5. Which of the following is an example of an information system used for business intelligence in organizations?
 - a. Decision Support System (DSS)
 - b. Sales Force Automation (SFA)
 - c. Knowledge Management System (KMS)
 - d. Customer Relationship Management (CRM)

Answer: a. Decision Support System (DSS)

- 6. Which of the following is an example of an information system used for project management in organizations?
 - a. Supply Chain Management (SCM)
 - b. Business Process Management (BPM)

- c. Project Management Information System (PMIS)
- d. Enterprise Content Management (ECM)

Answer: c. Project Management Information System (PMIS)

- 7. Which of the following is an example of an information system used for marketing in organizations?
 - a. Supply Chain Management (SCM)
 - b. Customer Relationship Management (CRM)
 - c. Business Intelligence (BI)
 - d. Enterprise Resource Planning (ERP)

Answer: b. Customer Relationship Management (CRM)

- 8. Which of the following is an example of an information system used for e-commerce in organizations?
 - a. Online Transaction Processing (OLTP)
 - b. Material Requirement Planning (MRP)
 - c. Sales Force Automation (SFA)
 - d. Enterprise Content Management (ECM)

Answer: a. Online Transaction Processing (OLTP)

- 9. Which of the following is an example of an information system used for knowledge management in organizations?
 - a. Business Process Management (BPM)
 - b. Human Resource Management System (HRMS)
 - c. Enterprise Content Management (ECM)
 - d. Knowledge Management System (KMS)

Answer: d. Knowledge Management System (KMS)

- 10. Which of the following is an example of an information system used for logistics management in organizations?
 - a. Supply Chain Management (SCM)
 - b. Enterprise Resource Planning (ERP)
 - c. Business Intelligence (BI)
 - d. Decision Support System (DSS)

Answer: a. Supply Chain Management (SCM)
