## 24 Lecture - MGT401

## **Important Subjective**

- 1. What is a share buyback and why do companies repurchase their own shares?

  Answer: A share buyback is the process of a company buying back its own shares from the market. Companies may repurchase their own shares for a variety of reasons, such as returning capital to shareholders, improving the return on equity, or preventing hostile takeovers.
- 2. What are the restrictions on the amount of shares that can be repurchased under Section 95A?

Answer: Under Section 95A, a company can repurchase up to 20% of its total paid-up share capital and free reserves. Additionally, the company must have the necessary funds available for the buyback and cannot exceed its borrowing limits.

- 3. Who can approve a share buyback under Section 95A?

  Answer: A share buyback under Section 95A must be approved by the board of directors and shareholders of the company.
- 4. What are the penalties for non-compliance with the provisions of Section 95A?

  Answer: Non-compliance with the provisions of Section 95A can result in penalties for the company and its officers, including fines and imprisonment.
- 5. Can a company purchase shares through private placement under Section 95A?

  Answer: No, a company cannot purchase shares through private placement under Section 95A.
- 6. What is the process for a company to repurchase its own shares under Section 95A?

  Answer: The company must pass a special resolution approving the buyback, file a declaration of solvency with the Registrar of Companies, and make the necessary disclosures to shareholders and the stock exchange.
- 7. What are the tax implications of a share buyback for the company and its shareholders? Answer: The tax implications of a share buyback can vary depending on the specific circumstances. However, in general, the buyback may be subject to capital gains tax for the company and shareholders.
- 8. Can a company purchase shares from a specific shareholder under Section 95A?

  Answer: No, a company cannot purchase shares from a specific shareholder under Section 95A. The buyback must be made from the open market or through a tender offer to all shareholders.
- 9. How long must a company wait between two share buybacks under Section 95A?

  Answer: A company must wait at least one year between two share buybacks under Section 95A.
- 10. What is the difference between a share buyback and a dividend distribution?

  Answer: A share buyback involves a company purchasing its own shares from the market, while a dividend distribution involves a company paying out a portion of its profits to shareholders. A share buyback can provide a tax advantage for shareholders, while a dividend distribution is
