

35 Lecture - CS201

Important Mcqs

1. Which header file is used for handling input/output operations in C++?

- A) iostream
- B) string
- C) vector
- D) algorithm

Answer: A

2. Which of the following is not a standard stream in C++?

- A) cin
- B) cout
- C) cerr
- D) clog

Answer: D

3. Which operator is used for insertion (output) operation with streams?

- A) <<
- B) >>
- C) ||
- D) &&

Answer: A

4. Which operator is used for extraction (input) operation with streams?

- A) <<
- B) >>
- C) ||
- D) &&

Answer: B

5. What is the default mode for file stream in C++?

- A) read
- B) write
- C) append
- D) binary

Answer: A

6. Which stream is used for handling errors during input/output operations?

- A) cin
- B) cout
- C) cerr
- D) clog

Answer: C

7. Which function is used to open a file for reading in C++?

- A) open()

- B) read()
- C) write()
- D) close()

Answer: A

8. Which function is used to close a file in C++?

- A) open()
- B) read()
- C) write()
- D) close()

Answer: D

9. Which function is used to check if a file is open or not in C++?

- A) is_open()
- B) read()
- C) write()
- D) close()

Answer: A

10. Which function is used to read a line of text from a file in C++?

- A) getline()
- B) read()
- C) write()
- D) close()

Answer: A
