

33 Lecture - CS301

Important Mcqs

1. **What is a priority queue using a heap?**

- A) A queue where elements are arranged in the order they are inserted
- B) A queue where elements are arranged in ascending order
- C) A queue where elements are arranged based on their priority
- D) A queue where elements are arranged in descending order

Answer: C

2. **Which operation(s) can be performed on a priority queue?**

- A) Insertion
- B) Deletion
- C) Retrieval of the highest priority element
- D) All of the above

Answer: D

3. **What is the time complexity of insertion in a priority queue using a heap?**

- A) $O(1)$
- B) $O(\log n)$
- C) $O(n)$
- D) $O(n^2)$

Answer: B

4. **What is the time complexity of retrieval of the highest priority element in a priority queue using a heap?**

- A) $O(1)$
- B) $O(\log n)$
- C) $O(n)$
- D) $O(n^2)$

Answer: A

5. **Which data structure is used to implement a priority queue using a heap?**

- A) Array
- B) Linked list
- C) Stack
- D) Queue

Answer: A

6. **What is the property of a heap that ensures the highest priority element is always at the top?**

- A) Heap size
- B) Heap capacity
- C) Heap order
- D) Heap property

Answer: D

7. **Which type of heap is used to implement a priority queue?**

- A) Max heap
- B) Min heap
- C) Both A and B
- D) Neither A nor B

Answer: A

8. **What happens when a new element is inserted into a priority queue using a heap?**

- A) The element is added to the end of the heap
- B) The element is added to the beginning of the heap
- C) The element is added to the correct position based on its priority
- D) None of the above

Answer: C

9. **What happens when the highest priority element is removed from a priority queue using a heap?**

- A) The last element is removed
- B) The first element is removed
- C) The element in the correct position is removed
- D) None of the above

Answer: C

10. **Which of the following statements is true about a priority queue using a heap?**

- A) The elements are arranged in ascending order
- B) The time complexity of insertion is $O(n)$
- C) The highest priority element is always at the top
- D) All elements have the same priority

Answer: C
