

# 37 Lecture - CS302

## Important Mcqs

1. **What is the main benefit of reducing the number of input latches in a digital circuit?**
- A) Improved functionality
  - B) Reduced power consumption
  - C) Lower cost
  - D) Faster performance

**Answer: B**

**Which electronic devices can benefit from reduced input latches?**

- A) Desktop computers
- B) Smartphones
- C) Televisions
- D) Printers

**Answer: B**

**What is the trade-off when reducing the number of input latches in a digital circuit?**

- A) Reduced complexity
- B) Increased functionality
- C) Improved performance
- D) Reduced flexibility

**Answer: D**

**What is the primary purpose of input latches in a digital circuit?**

- A) To store data temporarily
- B) To perform logical operations
- C) To amplify signals
- D) To convert analog to digital signals

**Answer: A**

**Which factor is not considered when deciding to reduce the number of input latches in a digital circuit?**

- A) Functionality
- B) Performance
- C) Cost
- D) Color

**Answer: D**

**What is the main disadvantage of reducing the number of input latches in a digital circuit?**

- A) Increased power consumption
- B) Reduced functionality
- C) Increased complexity
- D) Reduced flexibility

**Answer: B**

**Which electronic devices typically have more input latches?**

- A) Simple calculators

- B) Smartphones
- C) Digital watches
- D) Traffic lights

Answer: A

**What is the role of a latch enable input in a digital circuit?**

- A) To control the operation of the latch
- B) To store data temporarily
- C) To perform logical operations
- D) To convert analog to digital signals

Answer: A

**Which type of digital circuit benefits the most from reducing the number of input latches?**

- A) Simple circuits
- B) Complex circuits
- C) Low-power circuits
- D) High-performance circuits

Answer: B

**What is the main advantage of reducing the number of input latches in a digital circuit?**

- A) Increased complexity
- B) Reduced power consumption
- C) Higher cost
- D) Slower performance

Answer: B
