

2 Lecture - CS401

Important Mcqs

1. Which keyword is used to declare a variable in C language?

- a. int
- b. float
- c. char
- d. all of the above

Answer: d. all of the above

Which keyword is used to declare a constant in C language?

- a. var
- b. const
- c. let
- d. final

Answer: b. const

Which data type is used to represent characters in C language?

- a. char
- b. int
- c. float
- d. double

Answer: a. char

Which data type is used to represent decimal numbers in C language?

- a. char
- b. int
- c. float
- d. double

Answer: c. float

Which data type is used to represent Boolean values in C language?

- a. bool
- b. int
- c. char
- d. float

Answer: C. bool

Which keyword is used to define a pointer variable in C language?

- a. *
- b. &
- c. \$
- d. #

Answer: a. *

Which keyword is used to define an array in C language?

- a. array

- b. list
- c. table
- d. none of the above

Answer: d. none of the above

Which data type is used to represent whole numbers in C language?

- a. char
- b. int
- c. float
- d. double

Answer: b. int

Which keyword is used to declare a variable as a constant pointer in C language?

- a. const
- b. static
- c. volatile
- d. extern

Answer: a. const

Which data type is used to represent large numbers in C language?

- a. char
- b. int
- c. long
- d. double

Answer: c. long
