2 Lecture - CS401

Important Mcqs

1. Which keyword is used to declare a variable in C language?

a. int

b. float

c. char

d. all of the above

Answer: d. all of the above

Which keyword is used to declare a constant in C language?

a. var b. const c. let d. final <mark>Answer: b. const</mark>

Which data type is used to represent characters in C language?

a. char

b. int

c. float

d. double

Answer: a. char

Which data type is used to represent decimal numbers in C language?

a. char

b. int

c. float

d. double

Answer: c. float

Which data type is used to represent Boolean values in C language?

a. bool

b. int

c. char

d. float

Answer: C. bool

Which keyword is used to define a pointer variable in C language?

a. * b. & c. \$ d. # Answer: a. *

Which keyword is used to define an array in C language? a. array

Which data type is used to represent whole numbers in C language?

a. char b. int c. float d. double

Answer: b. int

Which keyword is used to declare a variable as a constant pointer in C language?

- a. const
- b. static
- c. volatile
- d. extern

Answer: a. const

Which data type is used to represent large numbers in C language?

- a. char
- b. int
- c. long
- d. double

Answer: c. long
