## 15 Lecture - CS410

## **Important Mcqs**

**Question 1:**
Which Windows tool is used to view and manage running processes?
A) System Monitor
B) Task Manager
C) Event Viewer
D) Registry Editor
**Solution:**
B) Task Manager
**Question 2:**
Which Windows feature is used for organizing files and folders in a hierarchical structure?
Which Windows feature is used for organizing files and folders in a hierarchical structure?
Which Windows feature is used for organizing files and folders in a hierarchical structure?  A) Taskbar
A) Taskbar
A) Taskbar B) Start Menu
A) Taskbar B) Start Menu C) File Explorer
A) Taskbar B) Start Menu C) File Explorer
A) Taskbar B) Start Menu C) File Explorer D) Control Panel
A) Taskbar B) Start Menu C) File Explorer D) Control Panel  **Solution:**
A) Taskbar B) Start Menu C) File Explorer D) Control Panel  **Solution:**

Which Windows utility is used to schedule automatic maintenance tasks such as software updates and disk optimization?

A) System Restore
B) Windows Defender
C) Action Center
D) Task Scheduler
**Solution:**
D) Task Scheduler
**Question 4:**
Which Windows component is responsible for managing hardware and software settings, user accounts, and system security?
A) Device Manager
B) Control Panel
C) Registry Editor
D) Security Center
**Solution:**
C) Registry Editor
**Question 5:**
Which Windows tool provides a real-time graphical representation of system performance and resource usage?
A) Performance Monitor
B) Resource Monitor
C) Task Manager
D) Disk Cleanup

**Solution:**
B) Resource Monitor
**Question 6:**
Which Windows feature allows multiple users to work on the same computer while keeping their settings and data separate?
A) User Account Control (UAC)
B) Guest Account
C) Fast User Switching
D) System Restore
**Solution:**
C) Fast User Switching
**Question 7:**
Which Windows utility is used to create and manage network connections, including Wi-Fi and Ethernet?
A) Network and Sharing Center
B) Device Manager
C) Task Manager
D) Windows Firewall
**Solution:**
A) Network and Sharing Center
**Question 8:**
Which Windows tool provides a central location for configuring and customizing various system settings?

A) Control Panel
B) Task Manager
C) Disk Cleanup
D) Windows Defender
**Solution:**
A) Control Panel
**Question 9:**
Which Windows feature provides a way to revert the system to a previous state in case of issues?
A) Action Center
B) System Restore
C) Task Scheduler
D) Disk Cleanup
**Solution:**
B) System Restore
**Question 10:**
Which Windows component is responsible for managing user authentication and access to resources on a network?
A) Network and Sharing Center
B) Windows Defender
C) User Account Control (UAC)
D) Active Directory

\*\*Solution:\*\*

D) Active Directory
