15 Lecture - CS410

Important Mcqs

Question 1:
Which Windows tool is used to view and manage running processes?
A) System Monitor
B) Task Manager
C) Event Viewer
D) Registry Editor
Solution:
B) Task Manager
Question 2:
Which Windows feature is used for organizing files and folders in a hierarchical structure?
which windows feature is used for organizing files and folders in a hierarchical structure?
A) Taskbar
A) Taskbar
A) Taskbar B) Start Menu
A) Taskbar B) Start Menu C) File Explorer
A) Taskbar B) Start Menu C) File Explorer
A) Taskbar B) Start Menu C) File Explorer D) Control Panel
A) Taskbar B) Start Menu C) File Explorer D) Control Panel **Solution:**
A) Taskbar B) Start Menu C) File Explorer D) Control Panel **Solution:**

Which Windows utility is used to schedule automatic maintenance tasks such as software updates and disk optimization?

A) System Restore
B) Windows Defender
C) Action Center
D) Task Scheduler
Solution:
D) Task Scheduler
Question 4:
Which Windows component is responsible for managing hardware and software settings, user accounts, and system security?
A) Device Manager
B) Control Panel
C) Registry Editor
D) Security Center
Solution:
C) Registry Editor
Question 5:
Which Windows tool provides a real-time graphical representation of system performance and resource usage?
A) Performance Monitor
B) Resource Monitor
C) Task Manager
D) Disk Cleanup

Solution:
B) Resource Monitor
Question 6:
Which Windows feature allows multiple users to work on the same computer while keeping their settings and data separate?
A) User Account Control (UAC)
B) Guest Account
C) Fast User Switching
D) System Restore
Solution:
C) Fast User Switching
Question 7:
Which Windows utility is used to create and manage network connections, including Wi-Fi and Ethernet?
A) Network and Sharing Center
B) Device Manager
C) Task Manager
D) Windows Firewall
Solution:
A) Network and Sharing Center
Question 8:
Which Windows tool provides a central location for configuring and customizing various system settings?

A) Control Panel
B) Task Manager
C) Disk Cleanup
D) Windows Defender
Solution:
A) Control Panel
Question 9:
Which Windows feature provides a way to revert the system to a previous state in case of issues?
A) Action Center
B) System Restore
C) Task Scheduler
D) Disk Cleanup
Solution:
B) System Restore
Question 10:
Which Windows component is responsible for managing user authentication and access to resources on a network?
A) Network and Sharing Center
B) Windows Defender
C) User Account Control (UAC)
D) Active Directory

Solution:

D) Active Directory
